RESPONSE

Sir:

This is in response to the United States Patent and Trademark Office Action mailed February 18, 2002, which response is being made on or before June 18, 2002, for which a two-months extension fee is due and is being submitted herewith. Please amend the above-identified application as follows:

In the claims:

Please cancel claims 1-86, without prejudice and add new claims 87-92 as follows:

87. (New) A method of detecting a presence or an absence of a target nucleic acid sequence in a sample, the method comprising the steps of:

(a) contacting the sample with an oligonucleotide system under hybridization conditions so as to form a reaction mixture, said
